At O·W·L Youth Camps, kids enjoy a safe and fun environment, where they can build new friendships and reconnect with nature. Hiking, swimming, canoeing, camping out and stargazing, and learning to create something special, are just some of the fun activities we have.

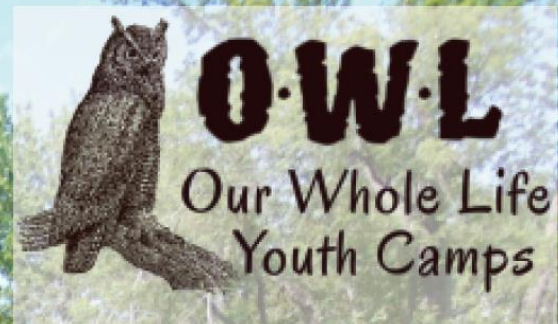

Kids are invigorated in the sunshine and country air, on a diet that includes fresh produce organically grown on-site. At O·W·L Youth Camps, we build on a foundation of thanksgiving and care for all of creation, and self-offering toward each other, while elevating young hearts and minds. Prayer in the Christian tradition is available at camp, in a gentle way (nobody is forced to pray).

In a spirit of profound hospitality and acceptance of each person, O·W·L Youth Camps welcome young people of diverse

backgrounds, especially those in difficult circumstances.

Kids can learn and understand about what compassion and kindness look like and feel like.

All are valued!  
All are welcome!

At O·W·L Youth Camps, the last are first, and our priority is to those in need. We hope most of all to provide, for children who may have difficulty attending summer camp, a summer to remember. No one is turned away because of financial need. Ask how we can help.
